

NUR ESMA HANIM BINTI ABDUL HAMID

Bachelor of Information Technology (Hons.), UiTM Arau, Perlis

Simpang Ampat, Pulau Pinang, Malaysia | +6013-484 2567 | esmahanim.hamid04@gmail.com

linkedin.com/in/esmahanim | github.com/esmahanimhamid-ops

Internship Availability: 7 September 2026 – 11 December 2026 (3 months, extendable upon request)

PROFESSIONAL SUMMARY

Final-year Bachelor of Information Technology student (expected graduation March 2027) with hands-on experience designing and building backend services, RESTful APIs, and full-stack applications using Java, MVC architecture, and CRUD-based systems. Experienced in relational and NoSQL database design (MySQL, Firebase Firestore), version control with Git/GitHub, and Waterfall project delivery. Comfortable working across the software development lifecycle, from requirements to testing and deployment, and eager to build production-grade, cloud- and platform-integrated solutions as a Software Developer Intern.

TECHNICAL SKILLS

- **Languages:** Java, Dart, SQL (JavaScript/Python – academic exposure and actively developing)
- **Backend & Web:** RESTful API development, JSP/Servlets, MVC architecture, event-driven data sync
- **Databases:** MySQL, Firebase Firestore, ERD design, relational schema normalization, CRUD operations
- **Tools & Platforms:** Git/GitHub, Android Studio, Visual Studio Code, Figma, Google Maps SDK, Microsoft Office 365
- **Practices:** Waterfall methodology, modular & testable code design, API integration, iterative delivery
- **Cloud & Enterprise Exposure:** Firebase (cloud-hosted NoSQL backend)
- **Soft Skills:** Analytical thinking, attention to detail, self-directed learning, communication, collaboration under deadline pressure

TECHNICAL PROJECTS

Perlis Pocket – Perlis Tourism PWA

2026

HTML · CSS · Firebase Firestore (backend-as-a-service) ·

- Designed and developed a Progressive Web Application (PWA) to provide interactive tourism experience in Perlis.
- Integrated with Firebase Firestore backend to support real-time integration for location-based feature.

RasaJourney – Gastronomy Tourism Mobile Application

2026

Flutter · Firebase Firestore (backend-as-a-service) · Google Maps SDK · REST-based API integration · Figma

- Designed and developed a cross-platform mobile application independently end-to-end, including backend architecture, UI/UX, and third-party API integration.
- Architected a Firebase Firestore backend with real-time data synchronization to support scalable restaurant listings and user review data.
- Integrated Google Maps SDK REST-based APIs to enable location-based search, filtering, and discovery features.
- Applied user-centered design principles to improve information hierarchy, usability, and interface clarity.

Flood Risk Analysis – Data & Machine Learning

2026

Python · PySpark · Docker · Matplotlib

- Analyse flood-related data and developed a predictive model to explore patterns associated with flood risk
- Evaluated the model prediction using Root Mean Square Error (RMSE) and the coefficients of determination (R^2)

Nanny Training Management System – Web Application

2025

Java · JSP · Servlets · MySQL · MVC Architecture

- Built a full-stack, role-based web application to manage training programmes and user records using Java Servlets and JSP.
- Implemented MVC architecture to separate business logic, data access, and presentation layers, improving maintainability and code clarity.
- Developed complete CRUD functionality with MySQL integration and a normalized relational schema across multiple linked data entities.
- Delivered and tested the system independently, ensuring reliable, bug-free functionality across all core modules.

WORK EXPERIENCE

E-Commerce Live Host (Part-Time), TikTok Shop

Feb 2026 – Mar 2026

Nibong Tebal, Penang

- Hosted live, high-visibility digital broadcasts, responding to real-time customer queries with no technical support team on hand.
- Built confidence performing under pressure in fast-paced, customer-facing digital environments — directly transferable to client demos and technical presentations.

Bakery Assistant (Part-Time), Zies Bake Shop

Aug 2025 – Oct 2025

Simpang Ampat, Penang

- Managed point-of-sale (POS) operations, ensuring accurate transaction processing and cash reconciliation.
- Coordinated daily operational workflow and maintained compliance with food safety SOPs during peak-hour service.

Barista (Part-Time), Bask Bear Coffee, Iconic Point

Jan 2024 – Mar 2024

Simpang Ampat, Penang

- Conducted regular stock-taking and monitored inventory levels to prevent supply shortfalls.
- Handled daily closing sales reconciliation while maintaining consistent adherence to brand SOP standards.

EDUCATION

Bachelor of Information Technology (Honours)

Universiti Teknologi MARA (UiTM), Arau, Perlis — Sep 2023 – Mar 2027 (Expected)

Matriculation in Science – Module 3 (Computer Science)

Kolej Matrikulasi Pulau Pinang — 2022 – 2023

Sijil Pelajaran Malaysia (SPM)

SM Sains Tun Syed Sheh Shahabudin — 2017 – 2021

LANGUAGES

- Bahasa Malaysia: Native
- English: Professional working proficiency
